

AC

ON HIGHWAY

Automatic Chassis Lubrication Systems

↓ Reduce

- Vehicle Wear and Tear
- Maintenance Costs
- Downtime for Repairs

↑ Increase

- Bearing and Vehicle Life
- Vehicle Efficiency
- Residual Values

+ Save

- Labour
- Vehicle Running Costs
- Replacement Bearing Costs

+ Self-Fit Automatic Lubrication Systems

Includes all material, installation and system set-up instructions to easily install automatic lubrication systems on a wide variety of On Highway vehicles.

+ Truck

+ Trailer

+ Tipper Truck

+ Truck Mounted Crane

+ Sweeper

Leading the world in **ON HIGHWAY** lubrication technology

12-24 Lubrication Points 24V

Part No	Description	SAP ID
AC685	AC2 Kit 12 Point 24Vdc	190045569
AC686	AC2 Kit 24 Point 24Vdc	190045570

36 Lubrication Points 24V

Part No	Description	SAP ID
AC687	AC3 Kit 36 Point 24Vdc	190045571

Pumping Units – Colour Coded for Ease of System Installation

Part No	Description
78033	PUMPING UNIT 0.010cc OUTPUT RED 4mm OD
78034	PUMPING UNIT 0.015cc OUTPUT GREEN 4mm OD
78035	PUMPING UNIT 0.025cc OUTPUT YELLOW 4mm OD
78036	PUMPING UNIT 0.040cc OUTPUT BLUE 4mm OD
78037	PUMPING UNIT 0.060cc OUTPUT SILVER 4mm OD
78038	PUMPING UNIT 0.100cc OUTPUT BLACK 4mm OD

25717-270/0.4KG	400g GREASE CARTRIDGE NLGI GRADE 2 GREASE	3	3	3

Typical Setup

Front Lubrication

- ✓ Spring Hangers
- ✓ King Pins
- ✓ Steering Linkages
- ✓ Spring Pins
- ✓ Steering Drop Links
- ✓ Drop Links

Rear Lubrication

- ✓ Spring Hangers
- ✓ Trunion Bearings
- ✓ Inner Brake Camshafts
- ✓ Outer Brake Camshafts
- ✓ Slack Adjusters

Typical Installation

AC Pump is typically mounted to the chassis rail
